TRAINER'S INTRODUCTION

KEVIN LEUNG (MSc, B.A)

Founder of Kitchen Dynamic (KD), Corporate Trainer, Business Coach, Team building Expert, Strategic Advisor, Pet Parent

Kevin brings two decades of unique sales and marketing experience with innovative strategies and solutions. KD was born in 2013 with the goal of providing a comfortable and relaxed setting that enables a versatile culinary learning experience. Kevin's vision evolved quickly and gained traction in the business world. His cooking experience has been implemented as a team building exercise in the corporate setting. He created "The Kitchen Game," one of the signature full day training stacks, to be chock full of challenging tasks, enhancing effective communication and team morale in pursuit of overarching goals. From cooking parties to team building to leadership training, Kevin brings the fun of cooking into every event, all the while building greater trust and familiarity amongst attendees.

Over the years, Kevin has created joint events with several non-profit pet rescue organizations to bring awareness to his mission of providing homeless animals with hope and a loving home - In one, the teams work to make pet food and pet dessert from scratch with healthy ingredients, while other events - like 'bring your pet' training events garner plenty of excitement as well.

Aside from being a busy entrepreneur, he believes strongly in giving back to the community. He offers free training such as financial planning, swimming, coaching, and other character builder seminars to achieve personal and professional breakthrough; to become better communicators, and excel socially and professionally! One of his greatest fulfillments is seeing young people break out of their comfort zone and grow confidently, gaining practical skills that can serve them for life.
